### ➤ YOUR OBLIGATION:

**Every organizer of events which take place in Public-Access building (PAB) has to appeal to a fire security inspector (Art. T5, decree of 11 January 2000).**

The term Public Access Building (PAB) represents public and private places which receive customers or users, not employees, more particularly in T types places which are **exhibition halls, congress areas, trade shows.**

### ➤ OUR MISSION STEPS:

#### ○ Upstream:

- We inform you, your exhibitors and providers, about the fire security constraints.
- We visit the place in order to see that everything in terms of security regulation was put in place.
- Our fire security inspector writes the security record and signs it with you before sending to authorities (minimum 2 months before the event opening).

#### ○ During the exhibition installation and before the event opening at the public:

- Our fire inspector is present during all the assembly stage.
- He controls the stands installations.
- He follows up the information given by the control offices and their installation, for multi-storey stands.
- He writes and presents the final security file imposed by the decree of 11 January 2000. This final security record is available to the authorities at the organizer office.

#### ○ During the event:

- Our fire inspector remains present during the event.
